Thailand has excellent perspectives of growth and development, direct connections to main international airports and is a premier tourist destination in the world. The Annual Conference is the main event that Pangea organizes and offers a unique chance to strengthen links between network members, to promote their companies, to establish new business contacts and to explore business synergies by making the most of the presence of independent freight forwarders from all over the world.

Over the three days, the attendees will enjoy an intense program of activities that combine working sessions with the networking opportunities at various informal events. The group activities are also alternated with face to face contacts between the forwarders who wish to impulse their collaboration within the network.

The event will take place at the incomparable [Swissotel Nai Lert Park](#), a luxurious five star hotel, the only low rise urban resort located in the heart of Bangkok city's centre, with convenient access to business districts, amazing shopping and Bangkok's legendary nightlife, offering contemporary design rooms and suites in Bangkok's historical lush gardens.
